

Abandoned Sewer and Water Service Connection Policy

- (a) Prior to the issuance of a demolition or removal permit for a building connected to the sewer and/or water system of the City of Weyburn, the owner of the property, or his agent shall be required to place a \$1,000.00 deposit with the City Director of Finance.
- (b) If within 24 months from date of deposit the existing service connection is re-activated or a new service connection is constructed in the same trench as the present connection, the deposit shall be applied toward any costs incurred, with surplus funds to be returned or additional costs invoiced as the case may be.
- (c) Where the old service connection remains abandoned for a period exceeding 24 months from date of deposit, the deposit shall be forfeited and not be refundable
- (d) In all cases the renewal of services must include disconnecting the abandoned water service at the main.
- (e) It shall be the responsibility of the owner or his agent to plug the sewer service connection with concrete at the closest excavation to the property line, with the work to be inspected by a City Official before said excavation is backfilled.
