

Smoke and Carbon Monoxide Alarms Requirements for ALL Residential Uses

Effective July 1, 2022 both carbon monoxide (CO) and smoke alarms will be required in all buildings in Saskatchewan which contain a residential occupancy. Residential occupancy is defined as “the occupancy or use of a building or part by persons for who sleeping accommodation is provided” such as a dwelling, duplex, apartment building, townhouse, hotel, secondary suite, basement suite, etc.

PLEASE FILL OUT AND RETURN THIS QUESTIONNAIRE
TO City of Weyburn Building Department, Box 370 Weyburn, SK S4H 2K6
BY Friday February 11, 2022
AND BE ENTERED TO WIN AN AMAZING GIFT BASKET!
(This is a mandatory Provincial requirement, and the City of Weyburn will enforce these requirements)

Name: _____
Address: _____
Email Address: _____

**** Please note that all floor levels must have both a carbon monoxide and a smoke alarm even if there are no bedrooms located on that floor level.**
