The applicant is applying for the following:

- Introduction of Sewer & Water Service
- Renewal of Sewer & Water Service
- Renewal of Sewer Service
- Renewal of Water Service

- Main to Property Line (PL)
- Main to Building
- Property Line (PL) to Building
- Other: _____

For the Premises: _____

SIZE OF WATER SERVICE LINE: _____ Nominal diameter

Copper

HDPE

- Water line renewals may be carried out with non-conductive plastic materials. If you carry out a water line renewal and your existing electrical system is grounded to your water supply line you may require an alternative grounding method after renewal. Proper grounding is the homeowners responsibility. Consult your electrician to ensure adequate grounding protection
- A tracer wire must be ran with the water line from the curb box to the meter
- For new/replacement installed service lines from PL to building can be Type K copper or HDPE CSA certified with a minimum rating of 160psi for potable water and CTS (copper tube size). (City of Regina specifications: <https://www.regina.ca/export/sites/Regina.ca/business-development/land-property-development/.galleries/pdfs/Construction-Specifications/Water-and-Sewer-Service-Connection.pdf>)

SIZE OF SEWER SERVICE LINE: _____ Nominal diameter

ABS

- No Furnco fittings to be used on new builds

YOUR APPLICATION MUST BE ACCOMPANIED WITH:

- Traffic Plan/Detour Details
- Detailed Design Plan (Showing north arrow, property lines, location of proposed service, City tree locations)

IMPORTANT INFORMATION: Applicant or Contractor must read and initial after each clause

Clause:

Initial:

1. If City trees need to be removed to facilitate servicing, a formal removal request is to be sent to the Parks Manager as soon as possible to initiate the process. All engineering options should be exhausted, tree removal shall be a last resort as per the Tree Preservation Policy. The Urban Forestry Bylaw and additional information can be found here: <https://weyburn.ca/urban-forestry-pruning-program/> _____
2. The City of Weyburn requires **48 hours notice** prior to construction to schedule a trench inspection. Call Public Works at 306-848-3290 for scheduling the trench inspection. Contractors may be required to uncover any work installed and covered without approval. _____
3. Not more than 30 days following construction an As-Built shall be provided to the City. _____
4. The **City of Weyburn Service Connection Repair Fund** – found here <https://weyburn.ca/water-sewer-service-connection-fund/> - details the responsibility of the property owner. Please review prior to submitting your application. Initial below acknowledging responsibilities are understood. _____
5. In every case where services are installed upon the request of the owner between the 15th day of November and the 1st day of May in the following year, the owner shall be responsible for the loss or damage to the said service by frost and shall pay the difference in cost arising from the increased cost of installation during the said period. _____
6. All costs associated with repairs and restoration to City trees and/or infrastructure, or public property that has been damaged as a result of the construction are at the cost of the Applicant. _____

The Applicant agrees to pay the cost of these works as fixed by the Bylaws of the City of Weyburn and assumes full responsibility for Contractor installation expenses. The below undersigned parties confirm the information provided is correct and acknowledge all clauses and information provided within the application.
