ARTS & CULTURE

WAG

WEYBURN ART GALLERY

The Weyburn Art Gallery is a welcoming and vibrant cultural hub. It celebrates innovation, showcases both established and emerging artists within a wide variety of art forms, while providing educational opportunities for the public.

The City has been collecting 1 to 4 pieces every year, and the collection now holds more than 300 pieces.

Exhibitions change every 3 months.

The Weyburn Art Gallery is located inside the Credit Union Spark Centre at 540 5th St. NE.

Admission to the Gallery is always free.

Omentum

April - May - June

Omentum is a 10-painting series by John Brady McDonald that reflects major experiences faced by Indigenous people in Canada in recent memory. Influenced by Norval Morrisseau and Pablo Picasso, the collection explores themes of struggle, resilience, identity, and cultural reclamation. McDonald is a Nehiyawak-Métis artist from Prince Albert, Saskatchewan.

Touch Grass

July - August - September

Saskatchewan artist Amber Andersen presents custom-printed wallpaper, hand-tufted rugs, latch-hooked abstract landscapes, and drawings inspired by the visual language of interior design. The work reflects on our growing dependence on technology and invites viewers to reconnect with nature, each other, and the material process of making.

Permanent Collection Artists

April - May - June

The City of Weyburn's Permanent Collection will be featured alongside Omentum, with a curated selection of works chosen to complement the exhibition's themes and deepen the overall gallery experience. The inclusion of Indigenous pieces reflecting identity, story, and place helps create a meaningful dialogue between the works on display.

Grounded (*Jubilee Park*)

June - July - August - September - October

Grounded, a companion piece by Andersen to Touch Grass on display in the **Get Out Gallery in Jubilee Park**. Featuring nature-inspired mosaic tile patterns installed in illuminated outdoor panels, the work blends design and landscape imagery while continuing Andersen's exploration of artificiality and our mediated relationship with the natural world.
