

Temporary Full Time Term - Municipal Engineering Student

Job# 6339468

Date: October 13, 2026

Location: City of Weyburn – Engineering Department

Explore a rewarding career opportunity in Weyburn, a thriving prairie city in southeast Saskatchewan. As a multifaceted organization, the City of Weyburn is committed to being an engaged and diverse employer that plays a crucial role in shaping the vibrant fabric of our community. With a vision of "A Community for All" and a mission focused on "Growing Through Opportunity," join our dynamic team dedicated to upholding values of service, accountability, integrity and respect. Be part of approximately 160 employees (increasing to over 200 in summer) making a positive impact.

The Municipal Engineering student supports the Municipal Engineer and the Director of Engineering in meeting the obligations and responsibilities of the City of Weyburn for the operation, maintenance, expansion, replacements and approval of all infrastructure and activities affecting the Airport, the Solid Waste Management Facility, the Public Works departments, the Water Treatment Plant, and Land Development.

What will you do?

Step into a role where your initiative and teamwork shine! As a dynamic contributor to the City of Weyburn, you'll engage in meaningful projects that make a real impact on our community. Collaborate with a diverse group of professionals, expand your skills in municipal public service, and build lasting connections as you help shape the future of Weyburn.

SUMMARY OF RESPONSIBILITIES

- Assists the municipal engineer and director or engineering in identifying and defining any issues with City assets and determine best course of action to address.
 - Attends and participate as needed in committee work with separate agencies, to present and capture information as it relates to current and future projects.
 - Assists in preparing designs, contracts and service agreements for operation, maintenance, replacement and expansion of City assets.
 - Acts as a representative of the City and assists the municipal engineer with consultants, contractors, government agencies and outside agencies/groups.
 - Assists in developing annual reporting for landfill, lagoon releases and water treatment plant.
 - Assists in conducting ongoing departmental document reviews.
 - Collects and documents data from site visits.
 - Compiles and assists in updating drawing records.
